Forming the KiwiNet team

Andrew Harrison / Matt Dyck

December 2014

Overview

- Terms of reference (draft pre-circulated – feedback?)
- Your role as a KiwiNet Coordinator
- Resources – KiwiNet Handbook overview
- Discussion – What will it take for KiwiNet to operate successfully?

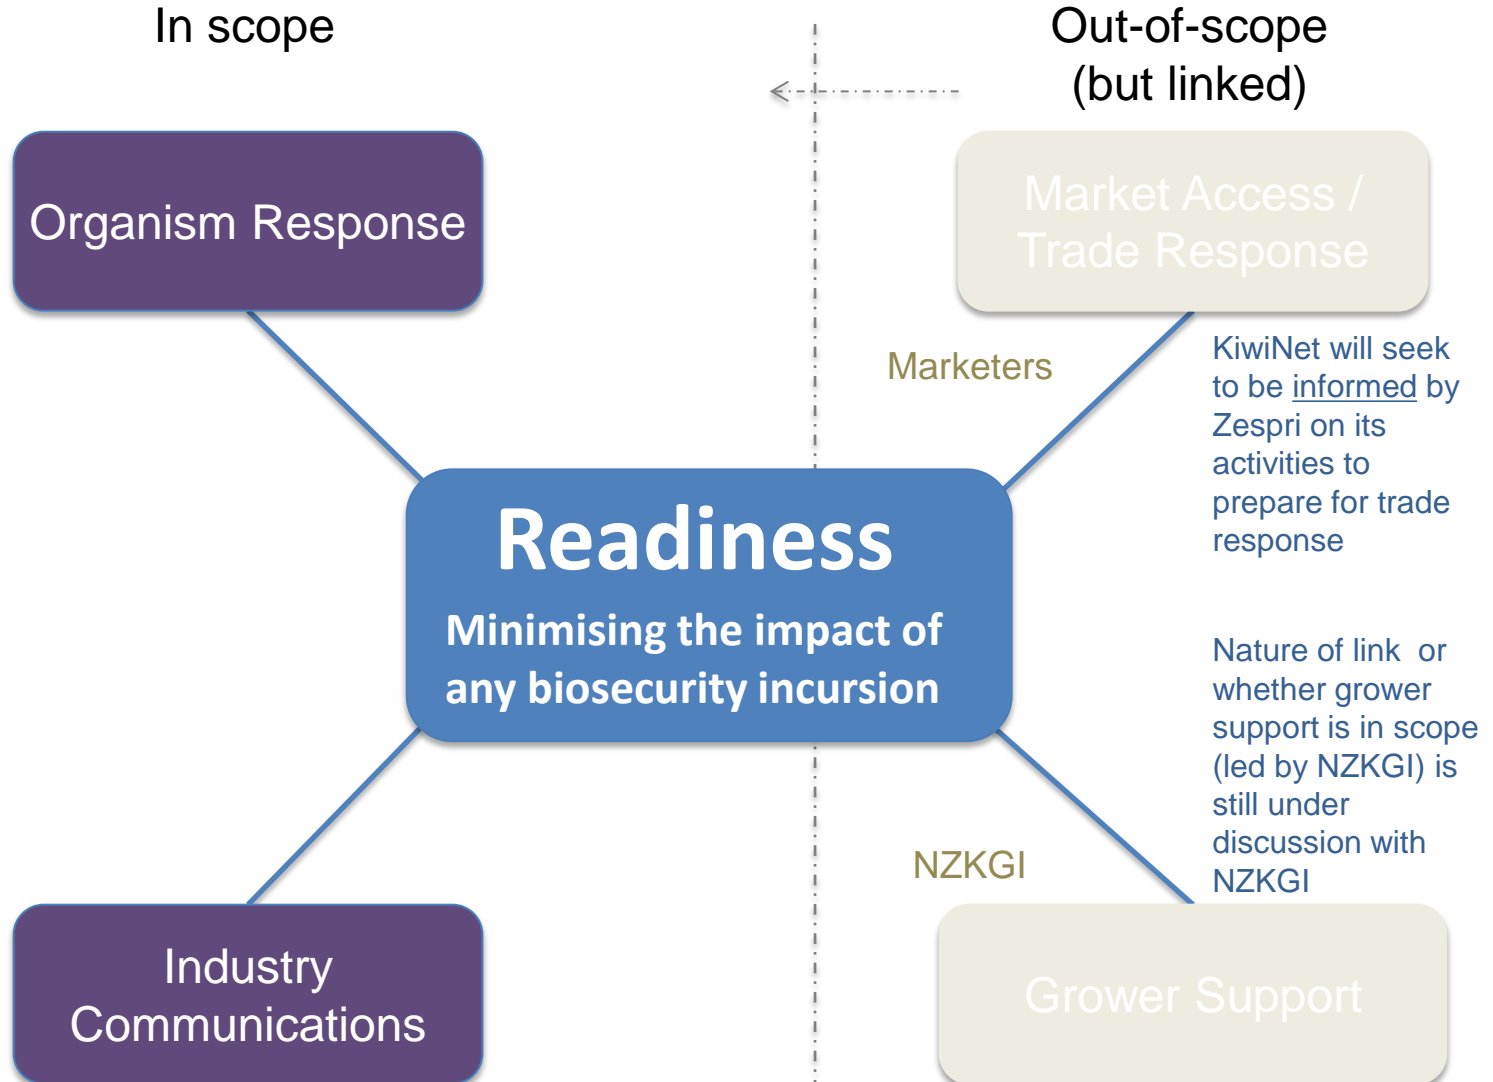

KiwiNet ‘Protecting the kiwifruit industry from its most unwanted’

- Network - team of people selected from right across the kiwifruit industry (marketers, post-harvest, growers/NZKGI, key service providers associated with the industry, KVH)
- Purpose: **To champion biosecurity readiness across the kiwifruit industry and coordinate deployment of kiwifruit industry resources into biosecurity responses**
- Exists to:
 - minimise impacts of a biosecurity incursion
 - retain and building on key lessons from our Psa-V experience
 - enable a pan-industry approach

KiwiNet scope

Industry governance

KiwiNet roles

<i>Roles</i>	<i>Description</i>
KiwiNet Team Leader	Leads the team and coordinates overall readiness activities
KiwiNet Response Coordinator	Coordinates kiwifruit industry resource deployment into response work streams Liaises with MPI and AQ for GIA responses
KiwiNet Coordinators (one in each kiwifruit organisation)	Champions readiness within their organisation Coordinates deployment of resources from their organisation into response
KiwiNet Communications	To coordinates the specific area of 'communications' readiness

KiwiNet – Responsibilities

- Champion biosecurity readiness including:
 - ✓ Awareness across the industry of biosecurity risks
 - ✓ Awareness across the industry of what to look out for and how to report
 - ✓ Promoting familiarity with industry readiness plans
 - ✓ Promoting appropriate contingency planning
 - ✓ Identifying capability (people, facilities, equipment, supplies, data) that can be called upon
 - ✓ Maintaining timely access to that capability
 - ✓ Champion capability development
 - ✓ Participating in simulations
 - ✓ Championing biosecurity practices that reduce risk

KiwiNet – Meetings and communication

- Meet at least twice a year
- Regular communications and early notification of any biosecurity response
- Participants to meet their own costs of meetings (cf. training and deployment of resources – costs to be covered by KVH)
- Minutes kept
- An annual self-review and report to KVH Board

Feedback on draft TOR?

Your role as a KiwiNet coordinator

Purpose:

- To champion biosecurity readiness within your organisation
- To coordinate deployment of resources from your organisation into biosecurity responses

Responsibilities:

- Promote awareness and understanding of biosecurity readiness and response arrangements within your organisation
- Know what relevant capability (relevant to biosecurity readiness and response) exists within your organisation

Your role as a KiwiNet coordinator

- Establish mechanisms to rapidly deploy that capability during response
- Have systems in place to ensure KVH can contact you (or any deputy/delegate) within 2 hrs
- Facilitate appropriate development opportunities for key biosecurity personnel (response role holders that require training in advance) in your organisation
- Monitor welfare and performance of staff from your organisation deployed into responses
- Encourage appropriate contingency planning within your business to reduce the impacts of response
- Promote uptake of biosecurity practices that reduce risk
