

Nursery list – status of nurseries

Definition of accreditation status

KPCS “Full Certification” — certified plants that meet all the testing requirements of all target organisms including Psa-V. These can be moved between regions in accordance with KVH movement controls.

KPCS “Within Region Only” – plants produced under the KPCS standard and certified freedom from all target organisms, except the “common” NZ strain of Psa-V. These Plants are tested with the “alternate Psa testing regime” and can be moved within a growing region, not across regional boundaries.

NB: This list will be updated to include nurseries who are intending to sell KPCS certified plants but are still at varying stages of the certification process.

Regional key: Exclusion Region Containment Region Recovery Region

Status	Nursery name	Plants Supplied	Location	Contact name	Phone number
Far North					
	Waimarama Nursery	Field grown Bruno rootstock	Far North	Paul Tolladay	021 210 4407 09 409 7709
Kerikeri
