

Nursery List—Status of Nurseries

Definition of accreditation status

KPCS “Full Certification” — certified plants that meet all the testing requirements of all target organisms including Psa-V. These can be moved between regions in accordance with KVH movement controls.

KPCS “Within Region Only” – plants produced under the KPCS standard and certified freedom from all target organisms, except the “common” NZ strain of Psa-V. These Plants are tested with the “alternate Psa testing regime” and can be moved within a growing region, not across regional boundaries.

NB: This list will be updated to include nurseries who are intending to sell KPCS certified plants but are still at varying stages of the certification process.

Regional key:  Exclusion Region  Containment Region  Recovery Region

Status	Nursery name	Plants Supplied	Location	Contact name	Phone number
Outside kiwifruit region
