

KVH PROTOCOL

Other Plant Material

Background

Movement controls are required to reduce the risk associated with movement of risk items between orchards and between regions, consistent with the NPMP objectives. Movement of any risk items that potentially constitute, harbour or contain kiwifruit vine material create a serious risk of spread of biosecurity threats including PsA-V. The risk associated with movement of plant material is considered to be high.

Scope

This protocol covers the following risk items:

- any kiwifruit wood for firewood;
 - compost containing kiwifruit plant material;
 - kiwifruit vines or prunings from an orchard;
 - any kiwifruit vine or vine material removed from a home garden or non-commercial orchard; and
 - all other plant material—not including budwood, rootstock or plants, seedlings and seeds for propagation.
- For these items refer [KVH Protocol: Budwood](#), and [KVH Protocol: Nursery Stock](#).

Requirements

- All kiwifruit plant material from a PsA-V positive orchard (or other site) **cannot** be moved off a PsA-V positive orchard (or other site) unless approval has been given by KVH.
- **Kiwifruit material is prohibited from sale or display as part of, or the whole, of any floral arrangement.**
- Any kiwifruit plant material must be disposed of as per [KVH Protocol: Disposal Options](#).
- Compost containing kiwifruit plant material must only be moved from KVH approved compost manufacturers. (Refer [KVH Protocol: Disposal Options](#).)
- Any plant material moved must be securely stored and handled in such a way that prevents dispersal, and fully covered during transport to another site.

Movement Controls

Not Detected orchards only

FROM: (source region)	Within the same region	TO: Destination region –if not region of origin		
		Recovery	Containment	Exclusion
Recovery Not Detected orchards only		Allowed	PROHIBITED	PROHIBITED
Containment Not Detected orchards only	Authorisation from KVH required	Authorisation from KVH required	PROHIBITED	PROHIBITED
Exclusion	Allowed	Authorisation from KVH required	Authorisation from KVH required	PROHIBITED
Outside of any region	N/A	Authorisation from KVH required	Authorisation from KVH required	Authorisation from KVH required

Psa-V positive orchards

FROM: (source region)	Within the same region	TO: Destination region –if not region of origin		
		Recovery	Containment	Exclusion
Recovery Psa-V positive orchards	<i>Authorisation from KVH required</i>	<i>Authorisation from KVH required</i>	PROHIBITED	PROHIBITED
Containment Psa-V positive orchards	<i>Authorisation from KVH required</i>	<i>Authorisation from KVH required</i>	PROHIBITED	PROHIBITED

Additional Requirements:

Controlled area notices:

There is a controlled area notice currently in place for Whangarei.

KVH has defined a controlled area around the centre of Psa-V infection in this region to which movement restrictions apply.

Movement controls apply to all risk items that move within or out of these controlled areas.
