

YOU HAVE THE POWER TO PROTECT YOUR LIVELIHOOD

Kiwifruit biosecurity threats could affect... Orchard Gate Return • Jobs • Community

THE NEXT
BIG THREAT
COULD BE HERE,
UNDETECTED AND
SPREADING.

IT MIGHT
ALREADY BE
ON YOUR
DOORSTEP.

YOUR
LIVELIHOOD IS AT
CONSTANT RISK.

5 steps to protect your investment

1. UNDERSTAND YOUR RISKS

- What pests and diseases could arrive from offshore?
- What is happening in my local area?
- How might these enter my orchard? (Who and what enters my orchard that might bring these in?)

2. AGREE WHAT MUST HAPPEN ON SITE

- Share knowledge with staff and contractors.
- Agree requirements and ensure that they are met.

3. SOURCE AND TRACE CLEAN PLANT MATERIAL

- Rootstock, budwood, pollen, shelter and compost.
- Look for Kiwifruit Plant Certification Scheme (KPCS) certification when sourcing plant material for confidence biosecurity requirements are being met.
- Keep tracing records updated.

4. CHECK AND CLEAN

- Consider the risk from: tools, vehicles and machinery, harvest bins, people, clothing.
- Do not allow dirty machinery or equipment to enter your orchard.
- Clean tools at least between rows.

5. REPORT THE UNUSUAL

CATCH IT

SNAP IT

REPORT IT
